## MY PROFILE.

Dedicated, passionate, goal-driven, team-player, hardworking, trustworthy, flexible and motivated are just a few words I can use to describe myself.

I take pride in my personal appearance also in my work. I enjoy working with new technologies and like to abuse the advantages of inheritance that object-oriented programming provides. I attempt to always keep my codes neat and clean. In my free time, I enjoy studying other coding languages to gain a competitive advantage above others.
